

Polly Products

With a new team in place, Polly Products has been re-branded and was officially re-launched at BETA. Amongst its new range of products, is the impressive 'Polly Pack', which contains a head collar and rope, fleece rug, tail guard, cotton travel boots and travel pad. The 'Polly Hat', which won the Safety and Security innovation award, is a unique riding hat which comes in two sizes – adult and junior. Fitted with a dial adjustor, the hat can be adjusted to fit any sized head, and has proved a huge hit with riding schools. Dog coats and beds to match the equine products were also on display.

Tom Eastwood from Polly Products said: "We have been really pleased with the show, and have secured orders from all over the U.K, as well as Germany, Belgium and Canada. We even had interest from Harrods!"
