

Safety and security

Winner: Polly Hat

from Polly Products.

This lightweight hat has been tested up to BSEN1384, and will be available as a kitemarked product from May.

The Polly Hat is streamlined and vented, and includes a "dial fit system", so that although only two sizes are available it can be adjusted to fit. It will retail from only £22.95

for children's sizes up to £26.95 for adults, meaning a damaged hat can be affordably replaced.

What the judges said: "Affordable safety to encourage new riders."
