

The Rug Trasher wears a Funnell Lightweight Turnout a rug that can stand up to a challenge!

My pony Sam has a reputation for getting up to as much mischief as he possibly can. Whether he is escaping from his stable or field or trashing his rugs, he likes us to know he has personality plus!

I tested the Funnell Lightweight Turnout on Sam to see if it would stand up to the challenge! He has been wearing it for 3 months now and so far it has stood up to the test. It is soft and lightweight, there has been no rubbing and he hasn't managed to wriggle out of it or shred it yet, so it seems to be doing its job! This is a good quality rug at a reasonable price and I would be happy to recommend it.

Shires Stormbreaker Combo

My thoroughbred Commodore is a great one for rolling in mud (I forget he is grey sometimes!) so he has always needed quality rugs that he can put through their paces.

The Shires Stormbreaker Combo looks fantastic and has been tough through some very testing weather this year. We have had no strap breakages so far which is great and it stays in place when he is having a good roll and a buck and a kick.

The rug has an integral neck cover, vital for keeping in the warmth, anti-rub lining in the front, leg straps, double breast straps, low cross surcingles and tail flap which will keep your horse comfortable and stop the rug moving. No centre-back seam and breathable lining/outer means your horse will always be dry inside whatever the weather. • ShireTex™ 600 Denier • Leg Gusset • Waterproof • Breathable • Nylon Lining • 300g Filling

Colour: Royal Blue Check, Olive Check, Airforce Blue Sizes: 45in-87in". RRP £79.90.

The Stable Softy wears Topaz 200/300 horse rug from E-quester

I found this rug to be stylish and of very good quality. My horse isn't very keen on the cold weather but seemed quite happy with his new winter wardrobe from E-Quester. He also liked the dual purpose nylon lining as it lays the coat down and gives added extra sheen. The 600 denier waterproof, breathable ripstop nylon shell is tough and durable. There is siliconised Hollow Fibre insulation 100 gsm (3.5 oz) on 100, 200 gsm (7oz) on 200 and 300gsm (10 oz) on 300 Nylon, lined to help keep the coat shiny. The rug has front leg gussets for ease of movement, twin buckle and clip chest straps for easy fastening, crossed surcingles - with elasticated inserts for more flexibility, detachable leg straps, tail flap and D-rings for neck cover attachment
 Sizes: 4ft 0in to 7ft 0in
